Foreword

A yearbook is a compilation of beautiful and significant pictures, both old and new, that tells an inspiring story.

The purpose of our *Le Diable Bleu* is to capture the spirit, wit, and friendliness of the Dillard Family. Even more important it delivers a message.

We decided not to use the traditional Blue Devil on the cover. Instead, we used two hands which symbolize the very concept we are trying to instill in the minds of our readers.

Our message this year is UNITY: unity between "all men," "all nations." Keep this in your mind as you thumb through the pages of this book.

We ask ourselves, "Did we succeed?" No one really knows. We can only wait and see, because the future holds the answer.

Editorial

A single human being as contrasted with a social group . . . that's the way the dictionary defines an individual. We would go a bit further, adding, "One whose talents, personality, intelligence, hopes, dreams, and disappointments are unique to him or her."

Each of us belongs to one or several ethnic groups, but even more important, each is an individual. The two babies pictured above were born within one day of each other. They belong to two different ethnic groups and will be classified as such as they grow up. But will they also be judged as individuals? Will both have the opportunity to win or lose friendships and respect on the basis of the traits that are theirs and theirs alone? Or will the black baby be automatically judged inferior by white supremacists? And will the white baby be hated by blacks who generalize all whites as "honkies?"

Will hate ever be banished from this earth? Probably not. There are too many ignorant people running through life scared. But there are many, and their ranks, are growing daily, who are beginning to realize that no-one really fits into a classification of "those people." Pin them down and almost all — black and white — will admit to "exceptions." If they can just advance that realization one step further, they will comprehend that there are no exceptions only individuals. And when enough take this final, ultimate step, mankind will have come as close to utopia as is probably humanly possible.

Let us hope that this will happen during the lifetime of these two babies.

A Dedication To Unity In Three

This issue of *Le Diable Bleu* is gratefully dedicated to the years of service, dedication and generosity of three Dillard benefactors, Dr. Theodore K. Lawless, President of the Board of Trustees, Mrs. Edgar B. Stern, Trustee and wife of the first President of the Board of Trustees and Mr. Harold J. Epps who has given years of service maintaining the beauty of our campus and environment.

Dr. Theodore K. Lawless saw an early vision of what could come to be out of the dreams, hopes and nearly a century of work of those who developed and administered the predecessor institutions which became Dillard University and he sought to make Dillard in reality the true University which it has become.

Mrs. Edgar B. Stern took up the work of her husband who took the leadership in the mammoth effort to successfully merge two deserving institutions into a single viable University. She stood by his side as he became the first President of the Board of Trustees of the merged institution. Since coming to the Board, she has provided essential wisdom and direction in the academic and intellectual climate of the institution out of her own heritage of dedication to educational innovation and challenge. She has matched in deeds the challenge of change toward the continual qualitative enhancement of the performance and role of Dillard University.

In this process of defining and demonstrating what a true University can be in all its parts and through all of its sources of dedication, Dillard University has come to take its place as one of the most beautiful campuses in the nation. The magnificence of its physical atmosphere is represented and symbolized by the complete and faithful dedication of the maintenance staff headed by Mr. Harold J. Epps. Fair Dillard gleaming white and spacious green is not only an inspiration to all who view her, but she is a tribute to the creative efforts and constant loyalty of all the men and women whom Mr. Epps symbolizes in the Dillard Family.

The Unity in Three is the unity of we — The Dillard Family.

Thus, we the Board of Trustees, administration, faculty and staff, students, alumni, and friends of Dillard University, are pleased to dedicate to you, Dr. Lawless, Mrs. Stern, and Mr. Epps, our 1971 edition of *Le Diable Bleu*.

Unity – And Reality

We live in a day and time in which the dramatic display of hatred, divisiveness and violence has proven to be both very profitable and readily exploitable by too many individuals and groups. The immediate rewards of recent excesses and indulgences to those who have profited, even in the name of peace, love, brotherhood and race pride have blinded too many of the rest of us to the prior truth that such patterns and promotions have their own dire consequences once given sufficient momentum. And those consequences are quite unrelated to the intentions of the promoters.

Some of those consequences have already tragically signaled to us that they may be neither controllable nor reversible if permitted to continue. Therefore, before the present processes of promotion of hate and divisiveness reach a point of no return, let us know that the greatest single need of this day is the redeeming spirit and virtue of true love and real unity subjectively in behalf of our own selves and objectively in response to the great need for unity in the whole of mankind.

Moreover, every man or group has in some sense come from every other, and every man and nation is inevitably bound to every other. That is why a military action in little Korea or Indo-China will reverberate in Washington, in Moscow, in London, in Paris or become a World War in fact. A schism in the Middle East or in Congo or in Nigeria or in Cuba is felt in New York and New Orleans, as much as in Jerusalem, or Leopoldville, or Lagos, or Havana. The large and small of men and nations have one common fate: they are indissolubly bound to a common destiny.

The power for destructiveness in the hands of all of the larger and more technologically advanced societies is now doubly compounded by the schismatic tendencies within too many smaller nations. These universally tragic potencies make both imperative and urgent the quest for the unity of real love, that real harmony, and that real belonging which must start in the mind and soul of each of us as individuals.

We must will to live in harmony with our brothers — our real brothers who are the totality of mankind. Should the pursuit of higher education encompass the quest for this unity, then we the educated will not be as hollow as the proverbial tinkling cymbals and sounding brass.

May we all know that even though the use of education for hate and division will still prove profitable to some, it will in the end profit no one to gain such knowledge and suffer the loss of his own soul. Moreover, the opportunity to use our education to do good and to produce harmony is so real that we should not let it pass, that is, if we have a real concern for our own identity or for a vision of unity.

A *Prayer For Peace*

O God, the author of peace in a world troubled with tensions and torn by warfare; Be thou our defense. Help us to commit our lives to Thee for a real and a lasting happiness. Teach us love for humanity everywhere and compassion for those whom we can help. Open our ears to hear, and our hearts that we may respond to your call. Lead us towards a realization, acknowledgement and acceptance of life and its blessing as gifts from Thee, dear Father. And finally Heavenly Father, give us, the Dillard Family, a sense of peace that will enable us to conquer any perplexity through our endeavors to keep these words in our hearts:

"Let there be peace on earth
And let it begin with me
Let there be peace on earth
The peace that was meant to be
With God as Our Father
Brothers all are we
Let me walk with my brother
In perfect harmony."

"Let peace begin with me
Let this be the moment now
With every step I take
Let this be my solemn vow
To take each moment and live each moment
In peace eternally
Let there be peace on earth
And let it begin with me."

"Fair Dillard"

Fair Dillard

Gleaming white and spacious green,
 We love thy every blade and tree;
 We love thy breathless days, thy nights serene,
 Thy halls where men are men and free.
 Arise O sons and daughters, hail thy queen,
 And pledge for aye thy loyalty.

Fair Dillard

Flaming love and learning's light
 Teach us each day, each passing hour
 A deep'ning love for beauty, truth and right
 Source of all nobleness and pow'r.
 And through the joyous day, the dreaded night
 Forever guide, Alma Mater
 Forever guide, Alma Mater

The Amistad Research Center was founded and is supported by the American Missionary Association, the founder of Straight University and a major contributor to the support of Dillard. Located in the Will W. Alexander Library and Rosenwald Hall, the Amistad Research Center, with over five million manuscript pieces, is one of the world's largest research libraries devoted to the study of Black history. University professors, graduate students and other scholars from across the United States come to the Center for research and study.

Among the major manuscript collections in the Center are the Archives of the American Missionary Association, the Archives of the Race Relations Department of the United Church of Christ and the private papers of Countee Cullen, George Washington Lee, Dr. Marguerite Cartwright, John Hope, II, Mary McLeod Bethune, and others. The Center holds microfilm copies of the Charles S. Johnson Papers, the John Mercer Langston Papers, the Archives of the Julius Rosenwald Fund, and Ph. D. dissertations in Black History.

Dr. Clifton H. Johnson is director of the Center. Mrs. Florence E. Borders is Senior Manuscripts Librarian.

The Division of Natural Sciences offers majors in biology, chemistry, mathematics, and physics. This division seeks to satisfy the needs of four groups of students: (1) the non-science majors who are meeting requirements for graduation and requirements for their objectives in life; (2) students who are meeting basic science requirements for nursing; (3) students preparing to become secondary school science and mathematics teachers; and (4) students who are preparing to enter graduate or professional schools.

Margaret Langham and Mitchell Haralson, two senior biology majors in histology lab.

Division Of Social Sciences

In the Division of the Social Sciences, courses are offered in three areas of concentration: economics, and business administration; history and government; sociology and anthropology. Students are provided a wide range of opportunities to extend their inquiry beyond the classroom and library to the larger, culturally-rich urban community. They are encouraged to participate in relevant research and social action involving local social agencies, institutions and groups.

Division Of Education

The major fields of this Division are: Early Childhood Education, Elementary Education, Secondary Education, Psychology, Physical Education, and Special Education.

All programs of teacher education offered by the Division are designed to satisfy the requirements for a teacher's certificate established by the Louisiana State Department of Education. Education majors receive laboratory experiences early in their program.

The purpose of the psychology program is to provide a major for the students in the area of psychology, and to provide appropriate electives for students in other majors who want to broaden their understanding of human behavior.

Dr. Marjorie Dachowski gives interesting lectures to both psychology and non psychology majors.

The student teacher is able to help the co-operating teacher give more individualized attention to the various problems of students.

Carolyn West, an elementary education major observes one of her pupils at the board.

Mary Hopson, Anita Washington, and Angelyn Bell, at the exhibit of mathematics materials.

Division Of Humanities

In view of the tremendous advancement made by science in the last two decades which has shrunk the world to such an extent that the most remote country is at the reach of the average individual, the Division of Humanities seeks to encourage in the student an appreciation of his cultural heritage, be it black, white, or otherwise, and inspire in him reflective thought upon the nature and meaning of the human enterprise as these are reflected in the language, the art and the literature of the most sensitive minds.

Dr. Ullysses S. Saucedo, Chairman, Division of Humanities, counsels two of his students.

Freshmen, doing inter-term projects in "on and off" stage drama are encouraged to write their own plays.

Mrs. Hall works before, after, and during class hours tutoring and giving individualized help in music.

Miss Cheryl McKay provides maximum assistance to each student in her art classes.

Speech students of Miss Lula Craig are given some helpful instructions by Dr. Ullyses Saucedo.

Nursing is a career which can be rewarding in many ways. It offers respect, security and a greater variety of opportunities than most occupational fields. It is also an excellent preparation for family life.

The Division of Nursing opened its doors to students in September, 1942. A registered nurse with a Bachelor of Science degree in Nursing from Dillard enjoys the prestige of being a graduate of the university which established the first nationally accredited collegiate program in nursing in Louisiana.

Infant care is an important aspect of nursing.

Experience is necessary for perfection.

Zeta Phi Beta

Zeta Phi Beta Sorority had its beginning at Howard University, January 16, 1920. Members of Phi Beta Sigma, Charles Robert and Samuel Taylor spoke to a young lady, Arizona Cleaver, concerning the establishment of a sister organization at the university. The young lady willingly accepted the task and immediately began to work upon it.

Thus as a result, Zeta Phi Beta was founded as a sister organization of Phi Beta Sigma Fraternity.

Alpha Kappa Alpha

Throughout the years, the zenith of Alpha Kappa Alpha Sorority has been the promotion of high scholarship and ethical standards. Initiating the organization of sororities among Negroes on January 16, 1908 at Howard University, Washington, D.C., Alpha Kappa Alpha evolves toward the accomplishment of both friendship and unity among college women.

Delta Sigma Theta

Delta Sigma Theta was founded in 1913 at Howard University. The twenty-two young women who were its founders envisioned an organization of college women that would minimize the purely social aspects of Sorority life.

Today, women of all races and faiths who meet the requirements in character, scholarship, and citizenship responsibility are welcomed into membership in Delta Sigma Theta. From the small original group, Delta has grown to embrace 20,000 women with 240 chapters in 46 states and the Republic of Haiti.

Judy Gail Riley, freshman, reigned this year as Dillard's Miss UNCF.

The Dillard University Pre-Alumni Council of the United Negro College Fund sponsors the student fund raising drive for UNCF. Officers are: Al Buie, President; Carl E. Stewart, Vice-President; Linda Soule, "Miss Dillard 1970," Secretary; Chris Rogers, Publicity Chairman. Membership in the Pre-Alumni is open to all Dillard students.

Al Buie, Carl Stewart, and the Dillard Miss UNCF, Judy Riley, were delegates to the national meeting of the pre-Alumni Council held in Atlanta, Georgia, February 4-6, 1971.

Judy won the title of "Miss UNCF" in a fund raising competition after she met the qualifications for the contest. For her efforts she was honored at an "African Motif Ball," presented with flowers, and an all expense paid trip to Atlanta, and other gifts.

While in Atlanta Miss UNCF and the other delegates attended sessions and seminars based around the theme, "UNCF Efforts Toward A New Perspective." In addition, Miss Riley was presented in the National Miss UNCF procession in which the amount raised by representatives from the 36 member schools totaled \$106,000.

SO THAT WE

LEARN BETTER

The MIP program aims to establish a healthy rapport between student and teacher to the end that they may discuss matters frankly and that the student may be free to seek advice and help. It hopes to assist the student in gaining facility in the art of communication both orally and in writing. It hopes to capitalize on the knowledge and competency the student brings to college and by daily drills in reading, writing, and speaking induce him to participate freely in class discussions and debates with his peers and with his instructors.

Throughout the history of man, there have been many activities that have distinguished him from the lower forms of animal life. One of these activities has worked both to his advantage as well as his disadvantage. This activity being a banning together of like beings. Since the beginning, men have sought out each other to manifest their survival together.

The disadvantage came about when some men sought to create differences. As a result of this, wars were waged, people were enslaved, and some were even subjected to mass genocide.

In this age, it is incumbent upon us as young and educated people to accept our distinctions as significant but to also realize that we are but a part of an even greater entity. Instead of accepting the rhetoric of those who preach Racial, Ethnic, or Social separatism, let us follow the lead of those who propound the very theme of this yearbook . . . UNITY for all men.

A Tribute To Dr. Mack J. Spears

DR. MACK J. SPEARS, President Orleans Parish School Board

Dr. Mack J. Spears has been engaged in education as a career since 1933. He has taught at the elementary, secondary and college levels. He has had administrative experience as both an elementary and high school principal. For 13 years he was principal of McDonogh #35 High School in New Orleans, where he received national recognition for innovations which he introduced in teaching and a system of grouping students according to their potentialities.

When he assumed the principal's position at McDonogh in 1954, only ten percent of the graduates were going on to college. When he left that post in 1967 to join the Dillard faculty, 87 percent of McDonogh's pupils were going to college.

A native of East Feliciana parish, where he attended public schools in his beginning years, he continued in the public school system in New Orleans. He graduated from McDonogh 35, which he was later to head.

He is past president of both the Louisiana and New Orleans, chapters of the Association of Secondary School Principals, and for four years he was President of the Louisiana Education Association.

Dr. Spears is an alumnus of Dillard University. He received his Master's Degree in Education from Xavier University; and his Doctorate from Harvard University.

Dr. Spears is married to the former Olga V. Abadie. The couple has one daughter, Mrs. Bruce E. Mason, who is now the proud parent of Justin Spears Mason.

Dr. Spears was recently elected President of the Orleans Parish School Board, thus, becoming the first black to serve in this capacity.

We are proud of this graduate, for he is an inspiration to all who know him.

Alpha Chi Honor Society

Dillard University was granted the honor to install on its campus a chapter of the National Honor Society, Alpha Chi. Dr. Ulysses S. Saucedo was named its first Sponsor and after a careful selection of the upper 10 per cent of the Seniors and Juniors, forty-one students were inducted in brilliant ceremonies held at the Lawless Chapel on December 16, 1971.

The staff of Le Diable Bleu says congratulations.

*Unity
Through Pictures*

Mr. Troy J. Vincent, *Editor-in-Chief*

Twenty years ago we were as young as the beautiful babies whose pictures appear on the editorial page.

Our lives have been molded by many wonderful people who worked hard to help us become individuals who can make worthwhile contributions to ourselves and our community.

Let us solemnly vow, now, to make these potential college graduates of 1991 know that the 1971 class made up an integral part of a better world for them.
